Colonial Sequence, 1949 to 1969 - Dame Margery Freda Perham - 1970

Insurgent Empire - Priyamvada Gopal - 2019-06-25
Upsets received views to show how rebellious colonies changed British attitudes to empire. Much has been written on the how colonial subjects took up British and European ideas and turned them against empire when making claims to freedom and self-determination. The possibility of reverse influence has been largely overlooked. Insurgent Empire shows how Britain's enslaved and colonial subjects were not merely victims of empire and subsequent beneficiaries of its crises of conscience but also agents whose resistance both contributed to their own liberation and shaped British ideas about freedom and who could be free. This book examines dissent over the question of empire in Britain and shows how it was influenced by rebellions and resistance in the colonies from the West Indies and East Africa to Egypt and India. It also shows how a pivotal role in fomenting dissent was played by anti-colonial campaigners based in London at the heart of the empire.

State Failure, Sovereignty And Effectiveness - Gérard Kreijen - 2004-01
This comprehensive study of State failure upholds that the collapse of States in sub-Saharan Africa is a self-inflicted problem caused by the abandonment of the principle of effectiveness during decolonization. On the one hand, the abandonment of effectiveness may have facilitated the recognition of the new African States, but on the other it did lead to the creation of States that were essentially powerless: some of which became utter failures. Written in a style both provocative and unorthodox and using convincing arguments, this study casts doubt on some of the most sacred principles of the modern doctrine of international law. It establishes that the declaratory theory of recognition cannot satisfactorily explain the continuing existence of failed States. It also demonstrates that the principled assertion of the right to self-determination as the basis for independence in Africa has turned the notion of sovereignty into a formal-legal figment without substance. This book is a plea for more realism in international law. Pensive pessimists in the tradition of Hobbes will probably love it. Idealists in the tradition of Grotius may hate it, but they will find it very difficult to reject its conclusions.

This reference book, containing the biographies of more than 1,100 notable British women from Boudicca to Barbara Castle, is an absorbing record of female achievement spanning some 2,000 years of British life. Most of the lives included are those of women whose work took them in some way before the public and who therefore played a direct and important role in broadening the horizons of women. Also included are women who influenced events in a more indirect way: the wives of kings and politicians, mistresses, ladies in waiting and society hostesses. Originally published as The Europa Biographical Dictionary of British Women, this newly re-worked edition includes key figures who have died in the last 20 years, such as The Queen Mother, Baroness Ryder of Warsaw, Elizabeth Jennings and Christina Foyle.

Anxieties, Fear and Panic in Colonial Settings - Harald Fischer-Tiné - 2017-01-23

This book argues that the history of colonial empires has been shaped to a considerable extent by negative emotions such as anxiety, fear and embarrassment as well as by the regular occurrence of panics. The case studies it assembles examine the various ways in which panics and anxieties were generated in imperial situations and how they shook up the dynamics between seemingly all-powerful colonizers and the apparently defenceless colonized. Drawing from examples of the British, Dutch and German colonial experience, the volume sketches out some of the main areas (such as disease, native ‘savagery’ or sexual transgression) that generated panics or created anxieties in colonial settings and analyses the most common varieties of practical, discursive and epistemic strategies adopted by the colonizers to curb the perceived threats.

The Culture of Colonialism - T. O. Beidelman - 2012-06-27

What did it mean to be an African subject living in remote areas of Tanganyika at the end of the colonial era? For the Kaguru of Tanganyika, it meant daily confrontation with the black and white governmental officials tasked with bringing this rural people into the mainstream of colonial African life. T. O. Beidelman's detailed narrative links this administrative world to the Kaguru's wider social, cultural, and geographical milieu, and to the political history, ideas of indirect rule, and the white institutions that loomed just beyond their world. Beidelman unveils the colonial system's problems as it extended its authority into rural areas and shows how these problems persisted even after African independence.
